MEMORANDUM FOR: Deputy Director (Administration)

SUBJECT: Proposed [REDACTED] Leave,
Leave Act Amendments

STATINTL

1. The attached proposed [REDACTED] Leave Act Amendments is submitted for authentication. STATINTL

2. Subject Notice summarizes changes effected in the Annual and Sick Leave Act of 1951, as amended, by Public Law 763, 83d Congress. The Deputy Assistant Director for Personnel prepared the attached Notice and stated that it was agreed at a staff meeting of the Deputy Director (Administration) that a general Notice explaining these changes to employees was desirable even though revision of Regulation was not required.

3. Regulation [REDACTED] (authenticated on 17 September 1954), rescinds [REDACTED] both of which pertained to reduction of excess annual leave accumulations and implemented section 6 of PL 102 which was repealed by PL 763, and is thus in line with current legislation.

4. This Notice has been coordinated and concurrence obtained from the Comptroller and approved by the General Counsel. Since subject Notice does not involve Agency policy or procedural changes further coordination does not appear to be necessary.
